About this Survey

The Post Graduation Survey of Undergraduate Alumni is assembled annually by the Career Development Center in an effort to provide accurate and useful information to students, faculty, staff and administration about the post-graduation activities of undergraduate alumni from the University of St. Thomas. We hope this information will be used to advise current and future students.

The information in this report covers alumni who graduated from an undergraduate program during the 2009-2010 academic year (December 2009, May 2010 and July 2010). The University’s Office of Institutional Research and Analysis provided assistance for the survey that was sent out to 1,212 alumni November 2010 through February 2011. Of these, 589 (48.60%) responded to the survey.

174 graduates responding to the survey completed coursework for two or more majors. Those graduates have been included under each of their academic majors. These circumstances account for the total of 769 responses when individual majors are reported.

This survey, as well as previous survey results may be found on the Career Development Center’s website at www.stthomas.edu/careerdevelopment/pgs.

If you have any questions pertaining to the survey, or if you would like to request additional copies of this report, you may contact:

- Still Seeking
- Not Seeking
- Responding
- 4+ mo before grad
- 1-4 mo before grad
- Within a mo of grad
- 1-4 mo after grad
- 4-8 mo after grad
- 8+ mo after grad
- Responding
- Yes
- No

### Salary
- Department Median Salary Range
- Responding

#### Median salaries are reported by department instead of major to provide increased statistical significance. To protect confidentiality, departments with less than three salary responses cannot be reported alone, therefore we made the following modifications to the method for salary calculations: *For Geography, Music, and Physics we included last year's data to come up with more than three responses. **For Geology, since there were not enough responses last year, we included three years worth of data in the calculation.
Continuing Education Plans—Overall

Percentages are of those who responded to this question.

Currently enrolled ................................................................. 136 ...... 23.49%
Plan to enroll within four years of graduation ....................... 175 ...... 30.22%
Plan to enroll four or more years following graduation .......... 29 ...... 5.01%
Plan to enroll, no timeframe .................................................. 136 ...... 23.49%
Do not plan to enroll ............................................................. 103 ...... 17.79%

Total Responding ........................................................................ 579

Student Status of Those Currently Enrolled—Overall

Percentages are of those who responded to this question and marked their continuing education plans as currently enrolled.

Full-Time ............................................................................... 112 ...... 84.85%
Part-Time .............................................................................. 20 ...... 15.15%

Total Responding .......................................................................... 132

Employment Status of Those Currently Enrolled—Overall

55 of the 61 who reported they weren’t seeking employment under Employment Status are continuing their education. Data below represents a subset of Employment Status reported on page 2.

Percentages and counts are of those who met the following criteria: Marked an employment status (page 2) AND marked their continuing education plans as Currently enrolled.

Employed Full-Time .............................................................. 34 ...... 25.00%
Employed Part-Time ............................................................ 36 ...... 26.47%
Volunteer Service (e.g. Peace Corps, AmeriCorps) ............. 1 ...... 0.74%
Military Service ................................................................. 0 ...... 0.00%
Not employed, currently seeking employment ................... 10 ...... 7.35%
Not employed, not seeking employment ............................ 55 ...... 40.44%

Total Responding ........................................................................ 136
Degree Sought of Those Currently Enrolled—Overall

Percentages are of those who responded to this question and marked their continuing education plans as currently enrolled.

Responses from graduates in each department are listed alphabetically by organization (bold). Job titles (plain text) and internships (italics) are listed if provided by the graduate. More than one job title and/or internship will show up under an organization if multiple graduates from that department reported working within the same organization.

Methodology

This data is reported in summary and is released to the general public in both hard copy and electronic form.

Questions asked in the survey include: Current employment status, sector of employment, organization in which they are employed, title of position, approximate annual salary, whether or not they are enrolled in a graduate program, if so what area/field of study and where. Participants are also asked where they held an internship if applicable.

Participants are be asked to fill out the scan-able survey consisting of 15 questions or an online version with the same employment and continuing education questions.

Beginning in November of the survey year subjects are identified by their graduation date. Those graduating the previous academic year (December, May and July) will be surveyed. Our office makes initial contact to the subjects through e-mail. Those who do not respond to the e-mail receive a follow-up mailing. In late November, we attempt to contact graduates by post card with an early option to submit an online survey. In January we mail out a scan-able survey if they have not yet submitted one online.

Early online participants will be presented with complete information via the website similar to the information received by those the complete survey was mailed out to.

Phone calls are then attempted by our office in early February to those who have not responded by February 1.

As an incentive to filling out the survey, we hold a drawing for a chance to win one of five Amazon.com gift certificates ($100, $50, and three valued at $25).

Responses to the survey are afforded the same confidentiality as any confidential student data. It is handled by staff who agree in writing to our center’s terms of confidentiality. Data will be stored in electronic format on a university server with restricted access. This data will be kept in perpetuity so as to compare subsequent surveys. Survey data is always reported in aggregate and individual survey responses are not made public to university staff.

Aggregate data (not individual responses) is reported to the Minnesota Private College Research Foundation. All member career centers provide this data for state wide reporting.

During the process of mailing out surveys to individuals, we will receive address update information from the United State Postal Service. Public address updates provided by the postal service are handed over to Development in order to update university records. Additional updated address information may be handed over to a university alumni records office with the participant’s consent. Survey responses will not be linked to this information.
